

August 1, 2019

Dear Southwest Schools Community,

Welcome to the 2019-2020 academic year at Southwest Schools! I hope that you and your family have enjoyed this summer and are ready to kick off an exciting year of learning and building community. We are looking forward to seeing our students return on Thursday, August 15, 2019!

Our teachers and administrators have been preparing their campuses to be ready for our students on day one, August 15, 2019. We know that every day of learning counts towards the success of our students. Please prepare your students to start school ready to learn on our first day of school.

Our plans for this year have two particular areas of focus: to improve student achievement and to help students recognize and realize their potential. We will accomplish these goals by having a laser focus on our students and their needs.

Of course, we will need your support and assistance in achieving these goals. Of particular note, please send your child/children to school every day, on time. Also, as we partner in the education of your child/children, please communicate with the teachers and administrators on your campus. This communication will help us better serve you and our students.

Please know that we understand that you are trusting us to serve your son and/or daughter and our school community well. We at Southwest Schools are committed to doing just that!

We look forward to seeing our students and you very soon!

Warm regards,

Janelle James
Superintendent of Schools
